

# Prospectus

WSC-SD is an organisation for students who take the lead – as top students and scientists, as social entrepreneurs and as visionaries for a more sustainable future. Our organisation facilitates project collaboration and information exchange, offers multi-disciplinary and international opportunities and runs international projects to foster student participation in sustainable development.

## Welcome

### Dear reader

I am pleased to present you with the prospectus of the World Student Community for Sustainable Development (WSC-SD).

WSC-SD is an organisation for students who take the lead – as top students and scientists, as social entrepreneurs and as visionaries for a more sustainable future. Our organisation facilitates project collaboration and information exchange, offers multi-disciplinary and international opportunities and runs international projects to foster student participation in sustainable development.

### Our network

Since our formation in 2002, WSC-SD has been steadily growing in members and outreach. We understand Sustainable Development (SD) as a cross-disciplinary and international challenge and this is reflected in the composition of our network. Today we represent students from

all over the world and all SD-related disciplines. Our student communities and individual members are located in 58 countries, many of them at the world's most re-known technical universities. We are proud to be particularly attractive to student communities and individuals from developing countries, thus being equally representative for developed and industrialized societies.

### Our work

WSC-SD was born out of the idea that student collaboration needs to be extended beyond the limited periods of summits and conferences. The WSC-SD provides the continuity that is necessary for empowering students to become a leading force in sustainable development. At the onset, our organisation was created to provide communities and individuals with a platform to share ideas and information, to learn from each other's experience, to collaborate in projects and to grow together. While still fulfilling this purpose, WSC-SD started to launch its own international projects in the past year. Outstanding are the African Initiative, our student ebook on Climate Change and the COP 15 working team.

## Our flagship projects

**The African Initiative** focuses on contributing to developing entrepreneurship among African students and recent graduates. Building on the concept of “help to self-help” for wealth creation the initiative aims to actively stimulate and assist students and young professionals in start-up phases, and to connect with potential partners, investors and support outside local communities which in some cases lack initial resources. The initiative is carried out through collaboration between students in Kenya, Uganda, South Africa, Sweden and USA. In this phase the initiative focuses on student communities in Nairobi, Kampala and Fort Hare.

also seen a growth in members unprecedented in the history of WSC-SD. The appointment of an Advisory Committee allows us draw on the rich experience and expertise of six renowned scientists and entrepreneurs. In order to consolidate and strengthen our role within the field of activity on sustainable development we are now building up strategic partnerships with other organisations. Among them are youth organisations, scientific associations and international companies and business associations.

### Sina Birkholz

President

World Student Community for Sustainable Development

**Re:solutions - 21 young leaders on climate change** is an initiative to showcase successful student-led projects & innovations on a local, regional or global level that have a meaningful positive impact on climate change and reducing CO<sub>2</sub> emissions. The publication reinforces students' claim to be one of the leading forces for change and thereby inspires potential supporters and potentially active students. The eBook will be officially launched on 10th December 2009 during our side-event at the Young and Future Generation's Day at COP 15.

An international team, including members from MIT and Chalmers University of Technology as well as students from Uzbekistan, Colombia, Bangladesh and Egypt will attend the **COP15 negotiations**, teaming up with various other NGOs in order to maximize our impact in Copenhagen. Our activity in Copenhagen will focus on providing up to date media coverage on the negotiations, side events and actual developments in Copenhagen to enable all our members around the globe to follow up on this year's most influential conference.

## Our future

With the launch of WSC-SD owned projects at the last Student Summit for Sustainability S3 held in January 2009 in Zurich we took a major step forward. Accordingly, the last months have

# 1 WSC-SD: A leading international student organisation

## 1.1 About us

The WSC-SD is a multi-disciplinary network of motivated students with the ability to think and act both locally and globally, and who share the vision to make a difference. Our purpose is to be a leading international student organization that carries out meaningful projects that result in positive and enduring changes that improve lives and communities around the world.

We are an umbrella organisation for several student communities and a growing network of individual members. We are supported by our networks of alumni and advisers.

We are a non-profit making association under the Swiss Civil Code (ZGB, ART.60FF), in Zürich, Switzerland.

## 1.2 Our mission

The mission of the WSC-SD and its Member Student Communities (SCs) is to actively promote the incorporation of sustainability and sustainable development at every stage of education, research, business and public policy. Furthermore, the WSC-SD and its Member SCs promote and encourage the development of local Student Communities that share the objective of the WSC-SD.

## 1.3 History

In 2000, the Alliance for Global Sustainability (AGS) introduced a new educational initiative to provide graduate students and advanced undergraduate students with an opportunity to learn more about sustainable development. The course was designed to be a 2-week intensive immersion into sustainability. Today, this successful endeavor exists as the Youth Encoun-

ter on Sustainability (YES), a summer school held every year in Switzerland by ETH Sustainability, the former AGS Zurich. In the summer of 2000, as students from around the world gathered in Braunwald, Switzerland, the seeds for the formation of the WSC-SD were planted and further developed at the AGS AM 2001 in Lausanne and the YES course in Braunwald in the same year. Students were looking for a means of translating their collective will to take action into realising sustainability, through collaboration.

Just two years later, student representatives from the University of Tokyo (UT), Massachusetts Institute of Technology (MIT), Swiss Federal Institute of Technology Zurich (ETHZ), Swiss Federal Institute of Technology Lausanne (EPFL), Chalmers University of Technology and the University of Cocody-Abidjan founded the "AGS World Student Community" in San Jose, Costa Rica and held their first annual meeting. A few months later the name was changed to the current name World Student Community for Sustainable Development, in short WSC-SD. This arose from students wanting to be an independent organization, but still work closely together with AGS.

In July 2003, an e-journal called VISION was launched as a platform through which members of the WSC-SD could share their ideas on sustainable development, update each other on their activities and have both the opportunity to publish their own research in the field of sustainability and to read about the newest findings from their peers.

Over the years, VISION published more than 200 articles and attracted a large readership of several hundred readers per day. However, the VISION e-journal has been temporarily

suspended due to insufficient volunteers to run the journal. Over the past few years, we have welcomed several new student member groups. The student group from the University of Yaounde in Cameroon was granted membership in June 2004, and the University of Regina Students for Sustainability from Regina, Saskatchewan, Canada were successfully accepted as partners and then members a year later. In 2008, we accepted as members the Students for Global Sustainability – Nairobi, from the University of Nairobi, Kenya. In January 2009 the Sustainable Development Society from the University of St. Andrews, Scotland and a group called QUARK from the American University of Cairo, Egypt, acquired membership status. Our latest accessions are the Colombian student community Corporacion Grupo Tayrona and BME Green Association from Budapest in Hungary. Our organisation has been further strengthened by the many Individual Members who are joining us.

## 1.4 Our global presence

The WSC-SD has a growing footprint in six continents drawn from our student communities and the individual members. These are: Africa, Australia, Asia, Europe, North America and South America.

## 2 Friends of WSC-SD

Over the years, the WSC-SD has gained strong friendships with other international networks around the world that promote the need for community development. These networks include:

- AGS
- YES Course/ YES alumni
- iPOS
- Oikos International
- Project Survival Media
- Energy Crossroads
- Global Humanitarian Forum
- G-1Billion
- Planetcall
- TckTckTck

## 3 Our people

### 3.1 Organisation Structure

Our organisation structure is as shown:

### 3.2 The Executive Board

The Executive Board is elected annually by WSC-SD members and co-ordinates the activities of this international organisation. The board currently comprises of six individuals drawn from diverse backgrounds.

**President: Sina Birkholz (Germany)**

Sina is a student of Political Science and Psychology at the University of Augsburg, Germany. Her academic focus is on Critical and Constructivist Theories and she is particularly interested in the politics of Sub-Saharan Africa and the Middle East. Sina is a fellow of the German National Academic Foundation and funded by the Bavarian Max Weber Program. She was engaged with the Global Marshall Plan group in Augsburg and is a member of AEGEE. Sina had the opportunity to gather experience

working for a local newspaper, as an intern to a member of the European Parliament and at the Austrian Embassy's cultural forum in Cairo, where she lived for six months. She also spent a year at the University of St Andrews studying International Relations and had the chance to return to the Middle East for several months afterwards.

**Vice-President: Carl Justin Kamp (Sweden)**

Justin is currently a PhD student at the chemical reaction engineering department at Chalmers University of Technology, Göteborg, Sweden. The PhD thesis work is based on a project for the Volvo Corporation, where the goal is the reduction of particulate emission from diesel engines through increased physical and chemical understanding, simulation and design. Justin has a bachelor's degree in chemical engineering from the California Polytechnic University, a master's in Environmentally Sustainable Process Technology (Chemical engineering) from Chalmers and is working on a second master's in Engineering Mathematics at Chalmers. Justin is currently on the advisory board of AGS-Chalmers, and is consulting for the high-energy physics group, LIGO, at the California Institute of Technology.

**Director of External Relations: Christopher Baan (Netherlands)**

Christopher Baan is currently studying his Bachelors in International Development at Wageningen University, the Netherlands, with a specialisation in natural resources, climate change and international security. In the year 2008-2009, he was chair of the board of 'Morgen', the national student umbrella organisation for sustainability initiatives at Dutch universities. Christopher is member of the advisory group for the Dutch Youth Delegates to the United Nations Commission on Sustainable Development. In 2006 he cycled for half a year through India as part of an IT support programme at Ashray Trust, a local NGO in Varanasi, India.

**Director of Internal Relations: Tamilla Khalilova (Uzbekistan)**

Tamilla graduated from the Tashkent Medical Academy as a General Practitioner. She is currently the first year resident of cardiology at the Republican Specialized Research Center of Cardiology. She is the founder of an NGO in Tashkent. Together with the members of the NGO she worked on several projects encompassing health issues of Sustainable Development- air quality and health of population. Tamilla is currently the member of the Organizing Committee of the annual International Conference "New informational technologies in medicine, biology, pharmacology and ecology".

**Director of Strategic Development: Ruth Moko (Kenya)**

Ruth Moko graduated with a Bachelor of Science (Statistics) degree from the University of Nairobi, Kenya. Before starting a Master's degree, she is currently working as an advisor in Internal Audit, Risk and Compliance Services, KPMG East Africa. Her experience spans through the banking, insurance, manufacturing and petroleum industries. During her graduate years, she helped establish Students for Global Sustainability (SfGS) at her University. SfGS is one of the member student communities within the World Student Community for Sustainable Development (WSC-SD). Driven by a commitment of giving back to society, she joined the WSC-SD Executive Board in October 2009 to assist in the development of its long term strategy.

**Director of Online Collaboration: Pieter Ploeg (Netherlands)**

Pieter is a student of the International Youth Initiative Program for Social Entrepreneurship. He also holds a Bachelor of Art. He is active in different youth networks for social change. He worked for an international youth platform organisation called Idem - Identity through Initiative and was one of the founding facilitators and organizers of the Connectivity Conference in South Africa in 2011. He works on different social and sustainability projects, developing new forms of education for comprehensive sustainable development from Järna, Sweden as consultant, facilitator and web-developer.

### 3.3 Our Advisory Committee

The Advisory Committee of the WSC-SD consists of key individuals from certain key areas and provides advice and guidance to the student leadership. The committee does not necessarily represent WSC-SD current projects or/and standpoints.

Members of the Advisory Committee are:

**Dr. Thomas Andersson**

Former President of Jönköping University and Professor of International Economics at Jönköping International Business School. Senior Advisor of Science, Technology and Innovation Policy in the Sultanate of Oman, member of two expert groups of the European Commission. Former deputy director of science technology and industry at the OECD.

**Dr. Jeffrey I. Steinfeld**

Professor Emeritus of Chemistry at the Massachusetts Institute of Technology - U.S.A

**Mr. Philip Osano**

PhD Candidate in Geography at McGill University in Montreal, Canada. Studies in Environmental Science at Egerton University in Kenya, and Conservation Biology at the University of Cape Town (UCT) in South Africa. Former African Regional Project Manager- World YES Forum

**Mr. Steven Millman, S.M., M.A.**

Senior Associate, Booz Allen Hamilton, Co-founder WSC-SD, Martin Sustainability Fellow

**Dr. Greg Morrisson**

Professor, Department for Water Environment Transport at the School of Civil Engineering Chalmers University. AGS Co-ordinator, Chalmers University of Technology

**Dr. Onuki Mutuharu**

Project Associate Professor, Graduate Program in Sustainability Science (GPSS), Graduate School of Frontier Sciences, University of Tokyo

### 3.4 Regional Ambassadors

We have a dedicated team of ambassadors who are responsible for promoting the WSC-SD within their region, identifying potential new members (both SCs and IMs) and representing the WSC-SD in general.

- Latin America: David Alejandro Huertas Bernal (Colombia)
- Asia: Rizwan Mohammed Shamim (Bangladesh)
- Africa: Nickson Otieno (Kenya)
- North America/ Europe: Aaron Thom (US)

### 3.5 Individual members

We have a growing network of Individual Members who do not have a student community at their university, but are taking action for sustainability in their local communities. Currently, we have a total of 111 individual members residing in 58 different countries.

### 3.6 Student networks

The WSC-SD currently exists of 11 member student communities and 5 partner student communities at leading universities globally. They are:

Continent	University	Student community	Country	Status
Europe	Chalmers University of Technology	Chalmers Students for Sustainability (CSS)	Sweden	Member
	ETH Zurich	Project21	Switzerland	Member
	EPFL	Unipoly	Switzerland	Member
	Polytechnic University of St. Petersburg	St. Petersburg Students for Sustainability (SSS)	Russia	Member
	University of St Andrews	Society for Sustainable Development	Scotland, UK	Member
	Budapest University of Technology and Economics	BME University Green Association (EZK),	Hungary	Partner
Asia	University of Tokyo	University of Tokyo Students Community (ADC-UTSC)	Japan	Member
Africa	University of Nairobi	Students for Global Sustainability- SfGS-UoN)	Kenya	Member
	University of Yaounde	Universite Yaounde 1- Association pour le Developpement Durable (UYI-ADD)	Cameroon	Member
	American University of Cairo	Quark Society	Egypt	Member
	A network of Universities in Uganda	Students for Global Democracy	Kampala, Uganda	Partner
	University of Fort Hare	WSC-SD Fort Hare	South Africa	Partner
	University of Liberia	Oikos Monrovia	Liberia	Partner
North America	MIT, Cambridge	Sustainability@MIT	USA	Member
	University of Regina	University of Regina Students for Sustainability (URSS)	Canada	Member
South America	A network of Universities in Colombia	Corporación Grupo Tayrona	Bogota, Colombia	Partner

## 4 Notable achievements

We are currently between 3000 and 4000 members from a total of over 50 countries. Thus, it goes without saying, our strength is our diversity. With projects ranging from personal initiatives to large scale international programs, WSC-SD members are making a significant difference in their local communities and abroad. Below are a few highlights.

#### 4.1 Student Summit for Sustainability (S3)

Organising and participating in the Student Summit for Sustainability (S3) is one of the most exciting and rewarding global activities of the WSC-SD. The S3 is organized every year and provides our members and other participants the opportunity to meet, interact and network with each other. It involves presentations on related topics in sustainable development, well directed workshops poster presentations and of course a lot of fun. The summit is hosted by different Student Communities, giving them an opportunity to organise global events. Some of the successfully organised Student Summits are:

- S3 2006, by Project 21, Switzerland on "Mind Knowledge and Sustainability"
- S3 2007, University of Tokyo, Japan, on "Taking Action for Global Sustainability"
- S3 2008, University of Regina, Canada, on "Societies of Tomorrow"
- S3 2009, ETH Zurich, Switzerland was held in conjunction with the annual meeting of the AGS and provided the participants a better understanding of today's economic and political institutions in relation to sustainable development

#### 4.2 Summary of past projects

**International Conference on (South) African Views on SD**  
WSC-SD Fort Hare, Fort Hare, South Africa

**Project with Community School for Disabled Children**  
WSC-SD Fort Hare, South Africa

Analysing resources and needs, assisting in identification of relevant skills to be taught, improving learning environment, developing learning modules and helping with fundraising

**Latin-American Encounter of Youth for the Environment and Sustainable Development**

Corporacion Grupo Tayrona, Bogota, Colombia  
Seminar for Latin America Youth to enhance understanding of SD, capacity building and empowerment

**Tree Planting Initiative**

SfGS-UoN, Nairobi, Kenya  
Planting of 1000 tree seedlings at Upper Hill Secondary School

**Peace project in Kenya's Rift valley province**

SfGS-UoN, Nairobi, Kenya  
A mentoring-tutoring program for children and the youth in the community of Eldoret combined with a training program on the use of locally available materials to make solar cook-kits and baskets

**Research Project on Recovery and Purification of Methane Gas**

Quark Society, Cairo, Egypt  
Graduate working group researching on the Recovery and Purification of Methane gas with innovative techniques.  
Scientific Awareness Campaign  
Quark Society, Cairo, Egypt

**Lecture Series to debate new theories in the discipline of physics****Exhibition at World Happiness Festival in Tokyo**

Alliance for Global Sustainability and University of Tokyo Students Community AGS-UTSC, Tokyo, Japan  
 Demonstration of traditional sustainable costumes together with promotion of sustainably produced coffee

**Climate Change Working Group**

Alliance for Global Sustainability University of Tokyo Students Community AGS-UTSC, Tokyo, Japan  
 Participation of a UTSC delegation at COP14/CMP4 in Poznan

**Education Working Group**

Alliance for Global Sustainability University of Tokyo Students Community AGS-UTSC, Tokyo, Japan  
 Screening of movies and ensuing discussions, workshops for SD

**The MIT Generator**

Sustainability@MIT, Cambridge, MA, USA

**Plastic Bag Free St Andrews**

SDSoc, St Andrews, Scotland  
 Campaign for a plastic-bag free city in cooperation with the council and merchants' association

**Realty Check Seminar Series**

SDSoc, St Andrews, Scotland  
 Monthly seminar series to get "hands-on" ideas of how to implement SD in cooperation of community and university

**SD film night**

SDSoc, St Andrews, Scotland  
 Bi-weekly film screening with ensuing discussion

**Sustainability Tricks**

Unipoly, Lausanne, Switzerland  
 Development and distribution of leaflets displaying "sustainability tricks" to integrate SD in your daily life

**Focus Meeting on Education for Sustainable Development**

Chalmers Students for Sustainability, Gothenburg, Sweden  
 Conference on the role of SD in education and education for SD

**Filmcycle „In the sign of money“**

[project21], Zurich, Switzerland  
 Screening of documentaries at the ETH Zurich

**Cinema Solaire**

[project21], Zurich, Switzerland  
 Outdoor cinema with solar panels collecting the energy needed to show an open air movie

**“Another COP”**

Alliance for Global Sustainability and University of Tokyo Students Community AGS-UTSC, Tokyo, Japan  
 Participatory negotiation game about climate change

**“My work style”**

Alliance for Global Sustainability and University of Tokyo Students Community AGS-UTSC, Tokyo, Japan  
 Workshop on how to achieve social changes with various work styles

**Hungarian students in the media**

BME University Green Association, Hungary,  
 National media coverage of students calling attention to the fact that energy saving is very often not just a matter of money.

**Zero waste events planning guide**

Sustainability@MIT, Cambridge, MA, USA  
 A guide providing information on local resources available to help reduce your event's environmental footprint  
<http://www.appropedia.org/Zero-Waste Party>

**Studio!Sus (Micro-Journal),**

Project21, Switzerland  
 A bi-annual environmentally friendly magazine discussing socially relevant topics and focussed on pointing out key aspects from the perspective of sustainability  
<http://www.studiosus.project21.ch/>

**Awareness-raising green film club**

Central University Library and the BME University Green Association, Hungary  
 4-5 films with environmental messages are screened each semester to an audience of 25-65 people.

Student groups working on local energy, environment, and sustainability projects with a campus focus; joining forces and creating innovative ideas

**Business As UnUsual**

Sustainability@MIT, Cambridge, MA, USA  
 Collaborative art events, with Family Weekend event and two subsequent workshops to produce SD arts and crafts

**Zero Waste Event Info Session & Party**

Sustainability@MIT, Cambridge, MA, USA  
 Organizing Zero Waste Events and educating others on how to conduct their own Zero Waste Event

**FreeMeet III and IV**

Sustainability@MIT, Cambridge, MA, USA  
 Swap-Markets to promote reuse of goods, reduce waste and sending things to the landfill, and reduce unnecessary consumption of new goods.

**ESD Board games**

Unipoly, Lausanne, Switzerland  
 Development and promotion (e.g. in schools) of board games on SD

**Sustainable Food Week**

Unipoly, Lausanne, Switzerland  
 Week-long event with lectures, documentaries and film projections, sustainable meals and an organic food market

**Public health week**

Unipoly, Lausanne, Switzerland  
 Week-long event involving lectures, projections, meals, information stands and a party, revolving around health and medication

**Food Seminar – “You are What you Eat”**

Chalmers Students for Sustainability, Gothenburg, Sweden  
 Discussion seminar for sustainable food habits, including lectures and discussions

# 5 Ongoing projects

## 5.1 Gearing up for COP15

The WSC-SD is participating at the COP15 climate conference with a 20 students strong working team, from different countries and disciplines. WSC-SD will contribute to the Young & Future Generations Day on the 10th of December by launching its eBook on 21 innovative climate innovations. Our aim during COP15 is to learn and share best practices in policy-making, to learn from the process of translating climate science into policy, and to support the global youth movement to increase leverage on policy-makers to draft a successful post-Kyoto climate treaty.

As a network organisation, we are collaborating and joining forces with a range of different NGOs to increase momentum for 'Copenhagen' to succeed.

Christopher Baan, Netherlands

## 5.2 African Initiative

The African Initiative is a cross-cultural student project aiming to connect external WSC-SD partners and additional organizations' to student entrepreneurial initiatives in Fort Hare, South Africa and Nairobi, Kenya. Through support from educational institutions and collaboration with clean-tech partners, the initiative tries to give students with business ideas an enhanced network and resources outside their local environment.

Up until this point a study group has been assessing potential forms to reach aims. A student representation from Kenya, South Africa, Sweden and the US has been assembled, and a partnership has been formed with a Swedish non-profit biogas association. In Kenya the network has been marketed to students in the Nairobi region with positive effect and the project group has received business proposals from students. The Kenyan biogas market situation, the overall energy situation and the potential with waste management, has been studied. The project is currently in pre-project phase and will at the end of 2009 present a budget.

Christopher Hedvall, Chalmers University of Technology, Sweden

## 5.3 Growing Asian Cities: Structuring Sustainability Problems

The Alliance for Global Sustainability and the University of Tokyo Student Community (AGS-UTSC) are organising a student workshop in 2010 that focuses on sustainability issues from Asian perspectives and their relationships and influence in the global community.

**Theme:** "Growing Asian Cities: Structuring Sustainability Problems"

**Date:** March 16th-20th 2010

**Venue:** Hongo Campus, the University of Tokyo  
Yoshimasa Takahashi, University of Tokyo, Japan

# 6 Contact us

In case you are interested to join the WSC-SD, your organisation wants to collaborate with us or sponsor some of our ongoing projects, you may contact us through the following addresses.

### Joining the WSC-SD

Want to become a member organisation, individual member or interested in becoming a partner of WSC-SD? Download and fill in the application form from <http://wscsd.org/join-the-wsc-sd> and send it to [executiveboard@wscsd.org](mailto:executiveboard@wscsd.org) for review.
